6 Limit times

According to IMSSC Regulations 3.1 and 3.2, the following applies:

If a skater wishes to participate in a Masters' Allround Games, they must meet the following requirements in order to be allowed entry into the competition:

1) have a documented time (1.500m for MAG) on www.speedskatingresults.com, or similar, and;
2) have a documented time that meets the Minimum Time Standard (MTS) set forth in Regulation 3.2, and;
3) have skated that MTS time during the current or the previous two seasons.

If a skater fails to meet requirements 2) or 3) above, then the IMSSC Member of that skater's country has two options:

1. not allow the skater permission to participate until the requirements above have been met, or:
2. assist the skater in the preparation and submission of a Minimum Time Standard Waiver Request (TSWR) to the IMSSC by email to "INFO@IMSSC.ORG" at least 7 days before the closing of registration.

The IMSSC shall establish a TSW Review Board (TSWRB) consisting of 3 Members.

This TSWRB shall review each waiver request and determine by majority vote to Approve or Disapprove the waiver. The results shall be communicated to the requesting Member in time for the skater to register. If the Board determination is not made by the registration deadline, the default determination is an Approval. A follow-up informational communication, which includes the TSWR, and the TSWRB's determination, shall be sent to the IMSSC President and the Organizer of the competition.

8 Drawing and classification

Drawing at International Masters' Speed Skating Competitions will be done according to ISU Rule 244 for Drawing at International Competitions. Each of the 5 Year Age Groups is considered a separate competition in this respect.

Drawing Allround Competitions

For drawing of Masters' International Allround Competitions, including Masters' International Allround Games, the ISU Rule 244, paragraphs 4, 5 and 6 apply, as well as ISU Rule 240 paragraph 4, with three exceptions.

1) On the first 3 distances all 5-year groups will be joined together for drawings (women and men separately)
2) All competitors will be admitted to the last distance
   An exception to this is when a competitor has received a Yellow Card from the Referee, the competitor is then excluded from the remainder of the competition (ISU Rule 275 Disqualification)
3) The final distance drawing, classification and final ranking will be done in separate 5 years age groups independent of the number of participants per age group. However, skaters in adjacent groups with an odd number of participants, who in this case would skate alone on the last distance, maybe paired together on the last distance.

A skater that completes all distances successfully and obtains the lowest total of points in his/her five-year age group wins the four-distance competition in her/his age group.

Seeding

On the first two distances of the Masters' International Allround Games, the skaters will be seeded in groups of 6 skaters for the draw, according to their best times of the current season, their best times of last season or their personal best times (and in that order).

Prizes and Results of the Four-Distance Combination

For the four-distance combination, the first three competitors of each age group will be awarded a prize. All participants that finalize all four distances of the competition successfully, without being disqualified, obtain a (digital) certificate.

A complete protocol (containing starting times, lap times and accumulated lap times) will be published on-www.usspeedskating.org/results and the ***Sportity*** App.

9 Anti-doping measures

Anti-Doping tests will be carried out according to the ISU Anti-Doping Rules and ISU Anti-Doping Procedures, as given in the valid ISU Anti-doping Code (ISU Communication No. 2742 or any further update of this Communication).

See also the Anti-doping guidelines and procedure of the IMSSC.
